

FRAME COORDINATOR REPORT

AMBRUS KENYERES
FÖMI SATELLITE GEODETIC OBSERVATORY

EUREF TWG MEETING AND EPN LAC WORKSHOP

BERN, SWITZERLAND
13-15 OCTOBER, 2015

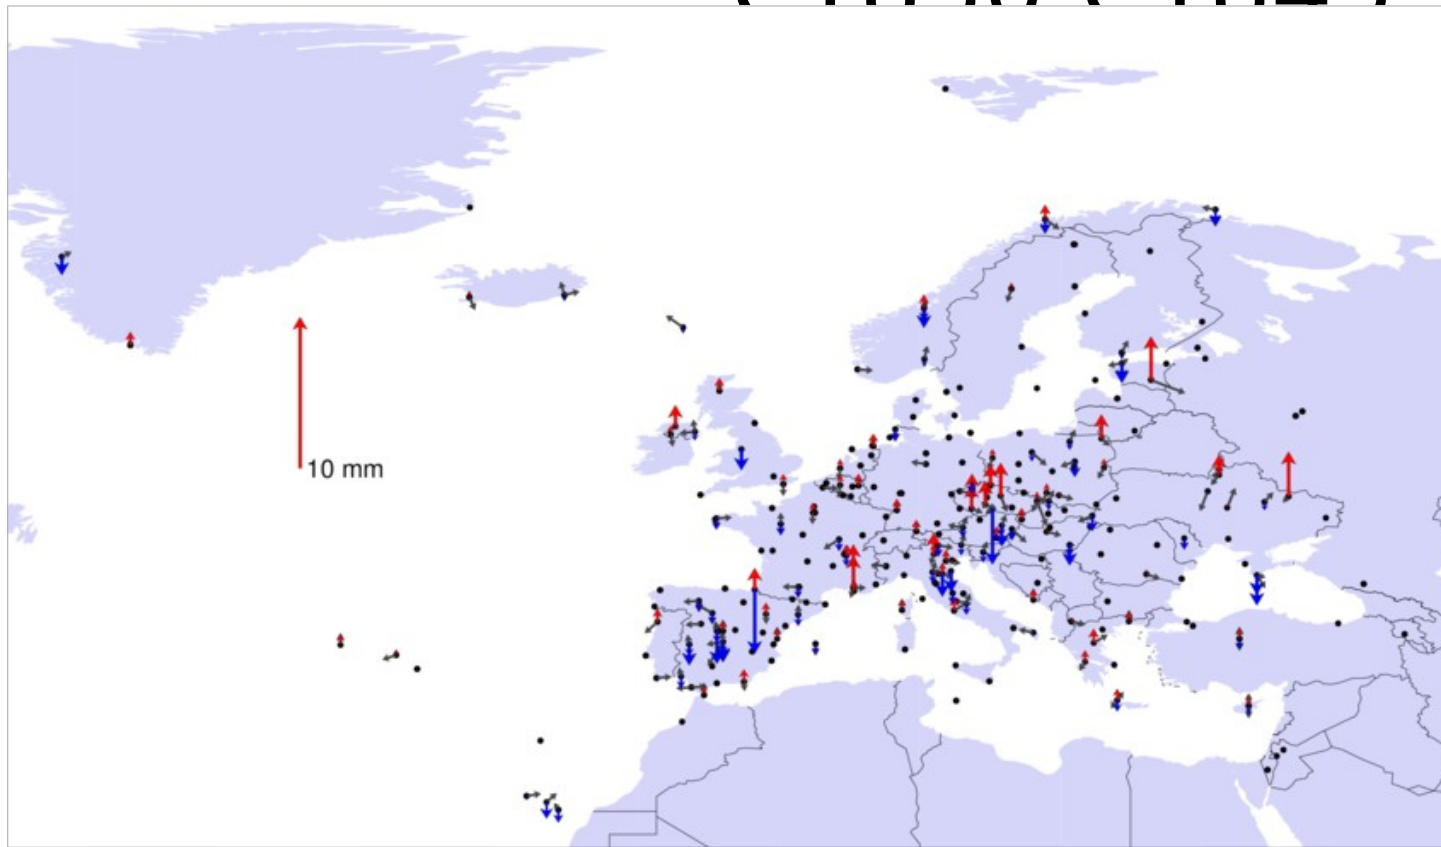

OUTLINE

- **EPN CUMULATIVE / ETRS89 MAINTENANCE**
 - STATUS
 - STATION CATEGORIZATION
 - PLANS
- **EPN DENSIFICATION WG REPORT**
 - STATUS AND OUTLOOK
 - NEW CONTRIBUTIONS
 - REPROCESSING IN THE FOCUS
 - RELATION TO EPOS

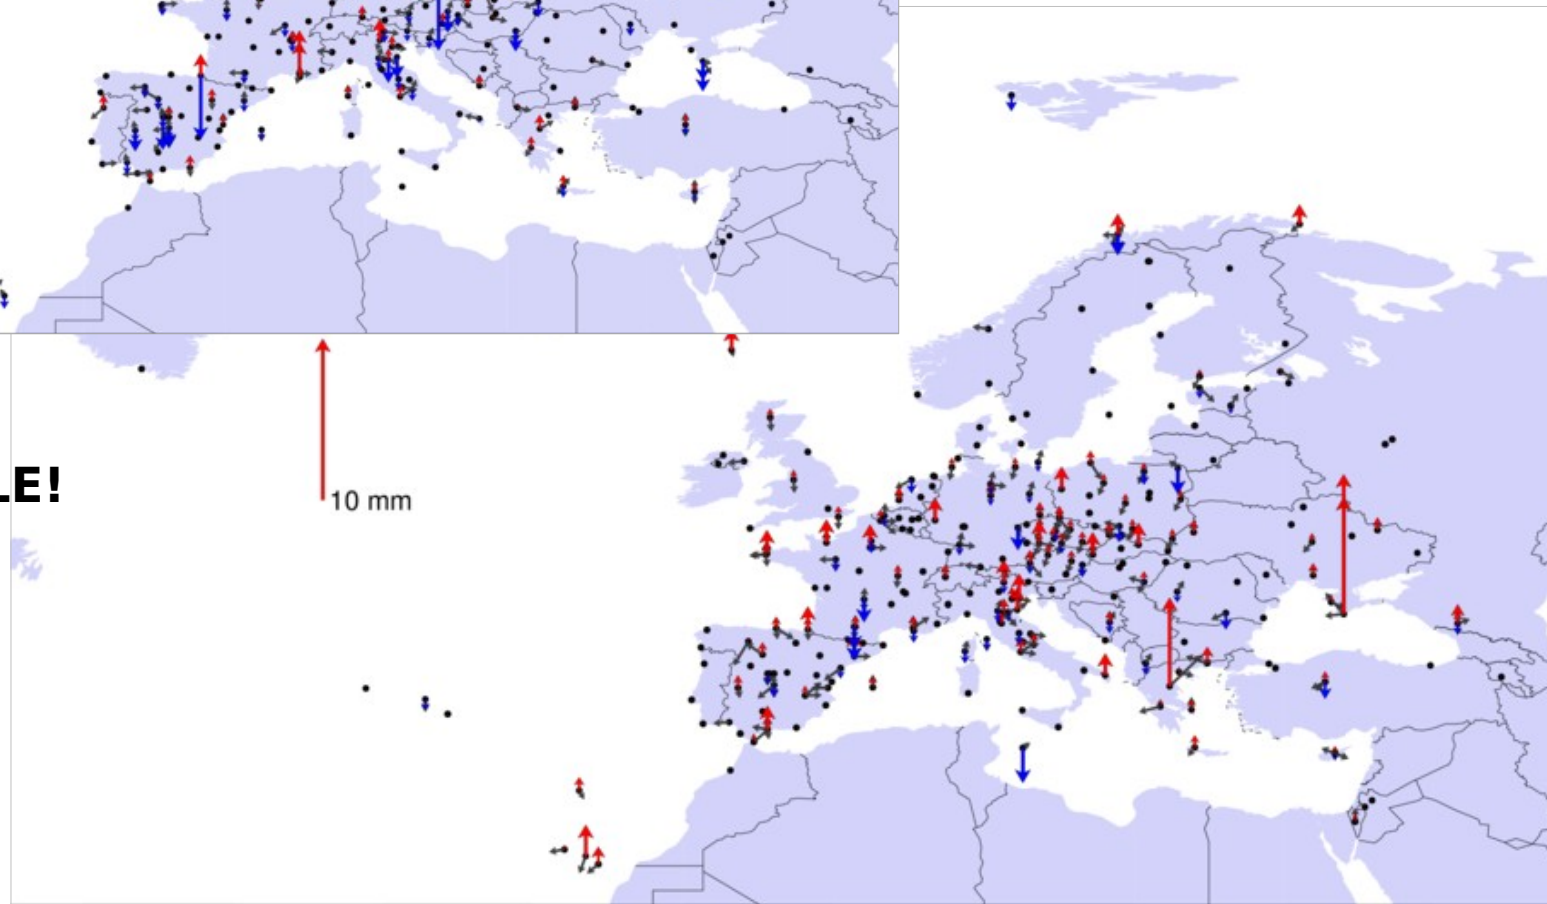

ETRS89 MAINTENANCE

- MULTI-YEAR SOLUTION OF THE EPN WEEKLY COMBINED SINEX SOLUTIONS USING CATREF
- SOLUTION PUBLISHED ON EPNCB WEBSITE:
 - CUMULATIVE POSITION AND VELOCITY PRODUCT IN SSC AND SINEX FORMAT
 - META DATA OF OUTLIERS AND OFFSETS (FROM LOG FILES AND SPECIFIC ANALYSIS)
 - TIME SERIES PLOTS (IN COOPERATION WITH EPNCB)
 - MISCELLANEOUS PLOTS (OBSLEN, WMRS, VELOCITY MAPS ...)
- UPDATE CYCLE: 15 WEEKS
- CHECK OF CONSECUTIVE SOLUTIONS

POSITION DIFFERENCES OF C1815- C1830-C1845

BIAS IS OBSERVABLE!

STATION CATEGORIZATION

B – 1 CM POSITION ACCURACY AT THE EPOCH OF MINIMAL VARIANCE

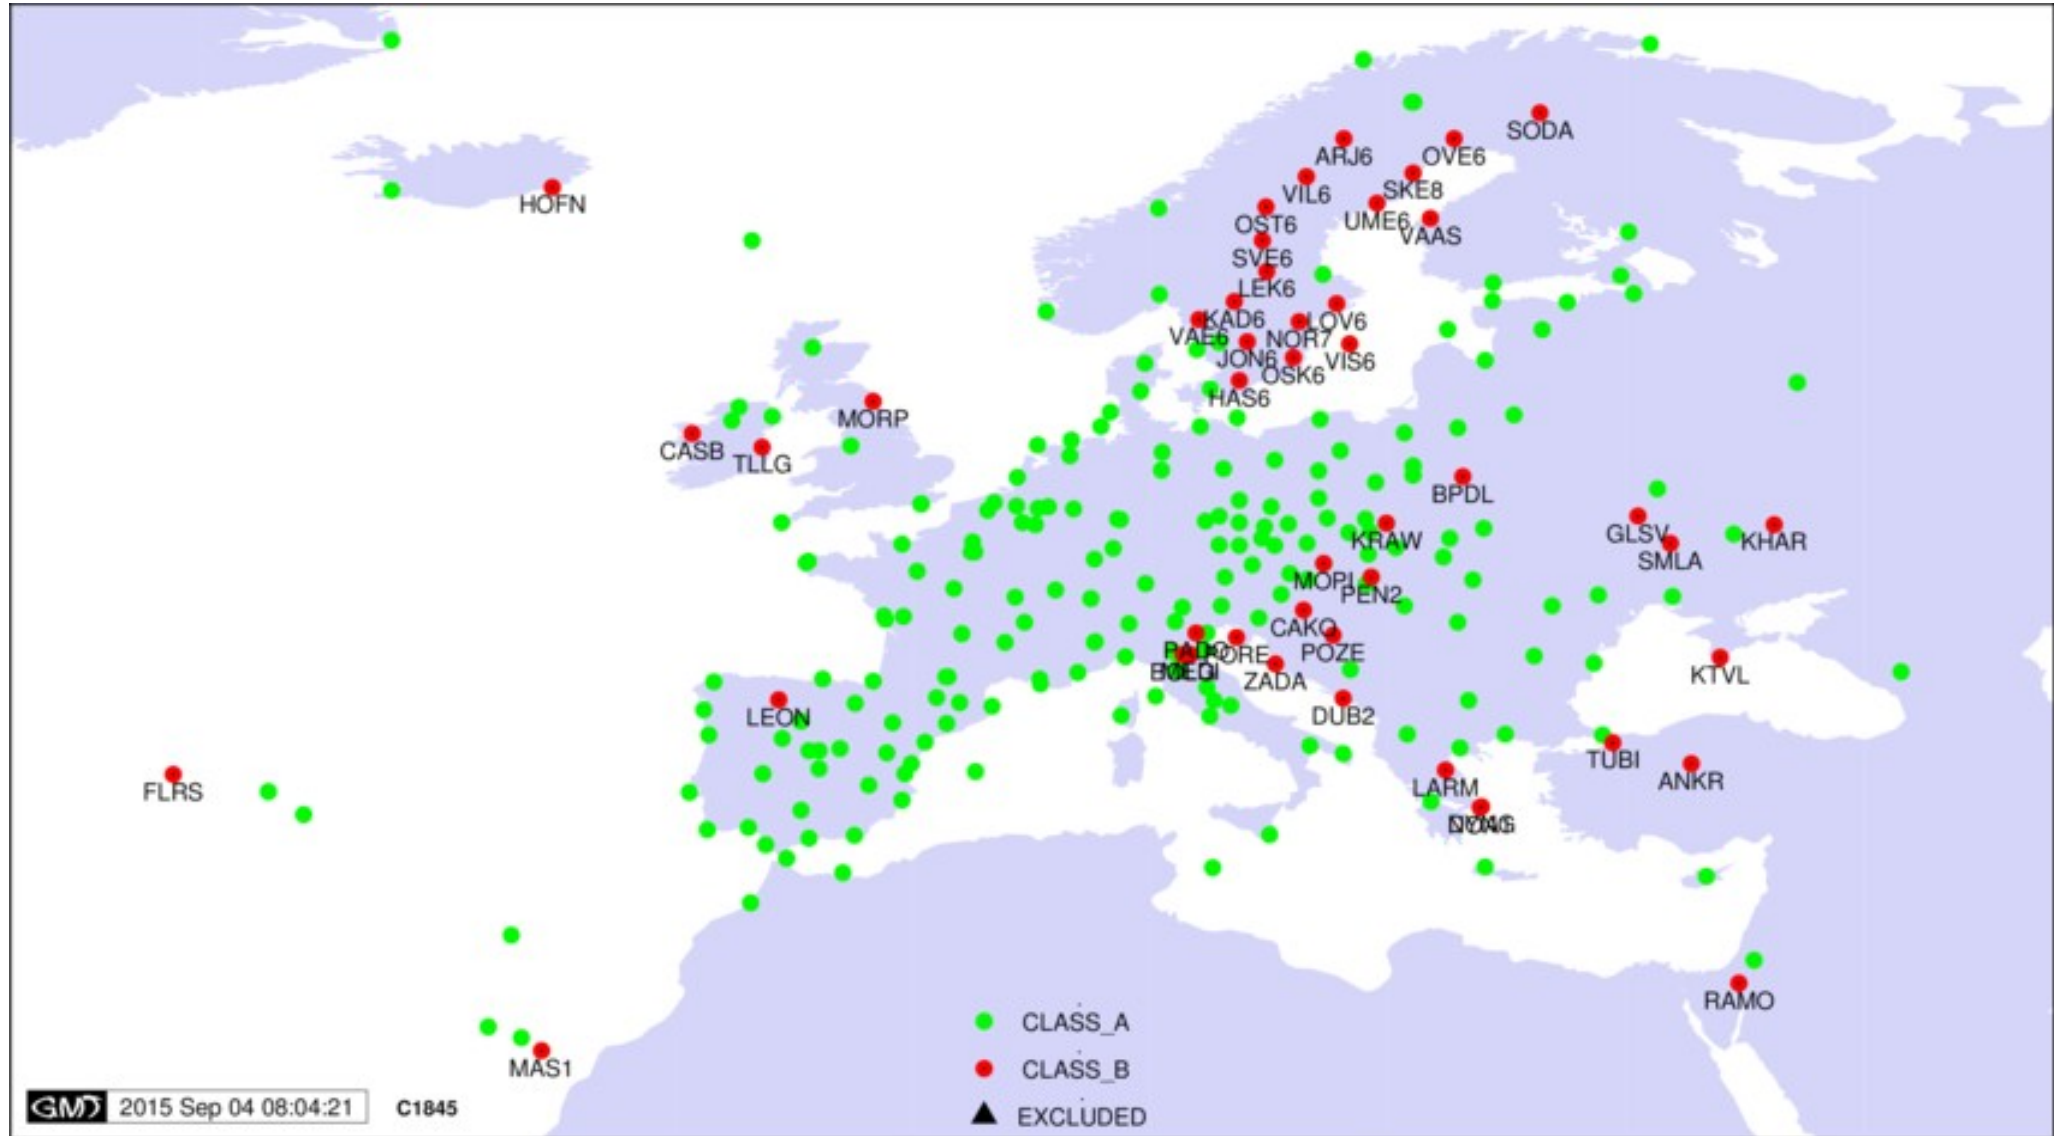

A – 1 CM POSITION ACCURACY AT ANY EPOCH → [0.1 mm/y] VELOCITY

EXPERIMENTAL CRITERIA TO EXCLUDE LOW PERFORMANCE STATIONS (INCLUDING STATIONS WITH HIGH SEASONAL SIGNAL) AND LET NEW STATIONS APPEARING IN CLASS_A ASAP (TWG REQUEST!)

AT LEAST 1.5 YEARS OF OBSERVATION LENGTH WITH STABLE, CONVERGENT POSITION AND VELOCITY ESTIMATE

1. POSITION REPEATABILITY LESS THAN 2MM (2D),
5MM(UP) FROM THE LAST 6 SOLUTIONS (PER 5 WEEKS)
2. VELOCITY REPEATABILITY **0.5 MM/YEAR** (!!) FROM THE
LAST 6 SOLUTIONS (PER 5 WEEKS)
3. MAXIMUM **SQUARED VELOCITY SIGMA : 0.4** FROM
THE LAST 3 SOLUTIONS (PER 5 WEEKS)

EPN STATION CATEGORIZATION

CLASS B EXAMPLES

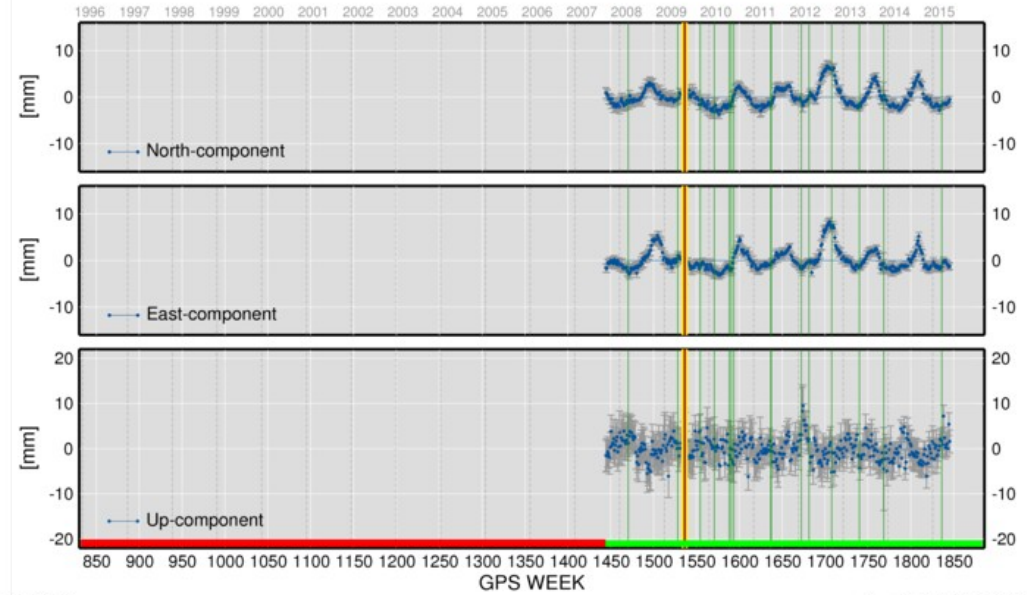

BPDL_12223M001 (Official EPN Solution)

EPN RFC

Sun Oct 11 11:06:09 2015^{2N} RFC

LEON_13475M001 (Official EPN Solution)

Sun Oct 11 11:10:01 2015^{2N} RFC

KHAR_12314M001 (Official EPN Solution)

EPN RFC

Sun Oct 11 11:09:29 2015^{2N} RFC

ANKR_20805M002 (Official EPN Solution)

Sun Oct 11 11:05:21 2015^{2N} RFC

EPN/ETRS89 MAINTENANCE

NEXT STEPS

- WAITING FOR REPRO2 RESULTS
- ITERATIVE FILTERING OF OUTLIERS (CHECK WHETHER JAN'S QUALITY INFORMATION IS CONSIDERED?)
- EXTENSIVE COMPARISONS & ANALYSIS
- THE EXPECTED POSITIVE EFFECTS OF REPRO2
- GLOBAL OR REGIONAL EPN?
- INDIVIDUAL CALIBRATION: EPN vs IGS
- IMPROVED STATION CATEGORIZATION PRACTICE
- COHERENCE WITH EPN DENSIFICATION
 - SAME COMBINATION STRATEGY
 - SAME DATUM
 - SAME METADATA
